PayCheck® Puck™

With the Paycheck® Puck™, Nanoptix is proud to offer our industry leading NextGen™ technology to our existing catalog of products. The Paycheck® Puck™ brings all of the connectivity and exciting features of the Paycheck® NextGen™ TITO printer to your other Nanoptix products.

FEATURES

·   Allows all Nanoptix products to take full advantage of Paycheck® Connex™

·   Bring new lines of connectivity to the Paycheck® series of products as well as other printers on your floor.

·   Featured Connectivity: Ethernet, HDMI, Serial, USB Host & Slave, MicroSD, etc.

·   Paycheck® Puck™ has a PC Based infrastructure providing a reliable and efficient gateway for new system features and innovations.

BENEFITS

·   Interconnect your whole floor and unlock your system provider's potential features and applications.

·   Allows you to gradually move to new printers while still taking advantage of your existing peripherals and linking them through the Paycheck Pucks.

·   Allows you to bring future proof connectivity to an existing mix of peripherals on the floor. Enhance your system capabilities without the investment of an entirely new floor of peripherals.

·   The PC based infrastructure provides enhancement of system features and unlocks existing modules within your game management system.

NANOPTIX
