FASTEST. SMARTEST. TOUGHEST.

PAYCHECK® 4™

Finally, there's a printer that's as fast as the gaming action on your casino floor. Only the Paycheck 4™ Thermal Printer from Nanoptix© can print a ticket in just 0.6 seconds!

In fact, the paycheck 4 is so lightning fast, there's no need to rely on a "burst", like some other, lesser printers do. Also, the Paycheck 4's 8 MB of standard memory enables you to store more fonts, images, logos and barcodes, so you can personalize your players' gaming experience. With a lifespan of approximately 640,000 TITO tickets, its print head has the longest life of any in gaming. We call it fastest, smartest, toughest! You'll simply call it "awesome!"
